

Sreekanth Chiramdasu

B.Tech · MBA · DBA Candidate

Senior Leader — Global Initiatives

Project Manager | Scrum Master | Agile Coach

Profile

Enterprise program leader with two decades of delivery across healthcare, pharmaceutical and telecommunications organisations — institutionalising project processes that convert strategy into business value, benefits realised, time to market and customer delight.

Clientele

Marriott International · Johnson & Johnson · Pfizer · Verizon · IHS Markit · CYIENT

Atlanta, GA · (717) 877-0477

Leadership & Delivery Record

- **Marriott International — Flex Senior Manager / Senior Scrum Master / Release Train Engineer** — led two SAFe implementations, harmonising value delivery, cadence and flow across development, business and operational value streams
- **Johnson & Johnson — Program Leadership, R&D Informatics** — directed the $25M PharmSphere R&D data lake through releases v16–v19 across 11 sprints, delivering $12.5M per year in PPM efficiency gains and leading the Cloudera-to-Snowflake migration; earlier, computer system validation under 21 CFR Part 11 for Ethicon, DePuy and Janssen R&D
- **Verizon — Commercial R&D, Fleet Dashcam (ADAS)** — led a dedicated Scrum team delivering next-generation video-telematics functionality and CPRA/CCPA privacy implementation; implemented DocuSign-based PDF invoice generation for Australia and New Zealand customers
- **Pfizer — Global Product Development PPM** — re-architected portfolio analytics on AWS (S3, Redshift, Dataiku), automating legacy Excel and Business Objects workflows
- **Earlier record — CYIENT · Medha Servo · Fusion Tech** — 35+ projects in a 110-person organisation (CYIENT); $10M annual programs for safety-critical railway systems (Medha Servo); 20+ QMS deployments taken from gap analysis to external certification (Fusion Tech)

Governance, Quality & Scale

- **Delivery at scale** — programs from proof of concept to enterprise deployment; budgets of $50K–$1M and teams of 5–100, governed through proactive, portfolio-level risk oversight and change control (CAB)
- **Quality systems** — 700 hours of internal quality auditing across ISO 9001, TL 9000, ISMS and CMMI, including the quality effort behind a CMMI Level 3 accreditation; 300 hours of professional training delivered; Competent Person for a pharmaceutical wholesale enterprise since 2022
- **Ways of working** — incremental, iterative delivery with go-lives at sprint, fortnightly, monthly and program-increment cadences; author, reviewer and approver of regulatory and compliance documentation with end-to-end traceability
